Hmm. Sort of? But it's likely going to be escorted. We had garbage trucks circulating within there this morning. Private cars would probably not be able to get onto Pine.

Sam, quick question on this – if a vehicle drives into the area via the 12th & Pike local street closure, does it have full ability to circulate on all of the streets behind the hard closures?

The roads are already closed it is hard for us to determine end date as this issue is dynamic and changes daily.... But we can provide information to the mapping partners as soon as it is available to us..

What the timing for these closures? Starting and ending, if an ending has been determined.

Sam & Michael,

Once we create the map could TOC share the information via twitter as we normal share road closure information?

Here is a quick sketch of the closures. 11th/12th and Pine between 10th and 13th are all closed.
